Earlybird booking before May 1st £50

10am until 2pm

GIFT VOUCHERS AVAILABLE  
Contact Emma on  
07540 191437

This workshop is aimed at anyone who would like to explore lino printing techniques for the first time or extend previous knowledge on a larger scale. We will be using the gardens as inspiration looking at the beautiful flowers and foliage to design simple motifs. These designs will then be hand carved into soft cut lino that carves much more easily than old fashioned lino and gives wonderfully clean prints. We will print a small edition onto varied papers, textiles and backgrounds. Printing onto fabric gives a fantastic starting point for extending into stitch too.

We can also explore three colour reduction lino printing techniques for those more confident. Most participants will produce variations of their design with layers of different colours. All the skills that learn at this four hour workshop can be transferred straight home to your kitchen table!
